Changes in Plants

We have seen that many animals adjust their habits when the seasons change, but did you know that plants do the same thing? We know that some plants lose their leaves and others have flowers that bloom. Many of the plants we use for food grow at different times of the year based on the seasons.

Sort the pictures of fruit and vegetables into the season when you think they grow best. Do not glue them down until we discuss the answers.

WINTER

Spring

Summer
