# Air and Water Quiz

1. Complete the sentence below:

All things need energy to move.

2. Sort the following into "Natural" things or "Man-Made" things.

Tree

Wind

Rock

Car

Bench

House

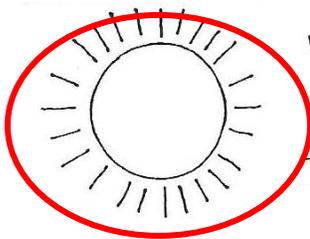

Water

Gasoline

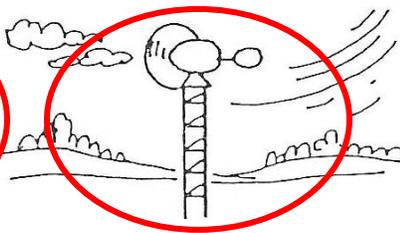

Duck

Natural	Man-Made
Tree	Car
Water	Bench
Wind	Gasoline
Rock	House
Duck	

3. Label the resources shown in the pictures. Circle the renewable resources. (There are 2 more on the back of this page.)

sun

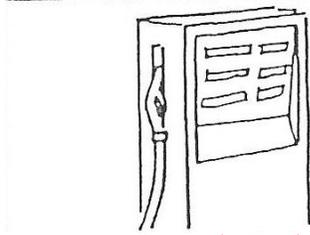

wind

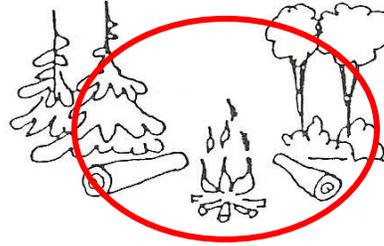

food

Name: \_\_\_\_\_

Date: \_\_\_\_\_

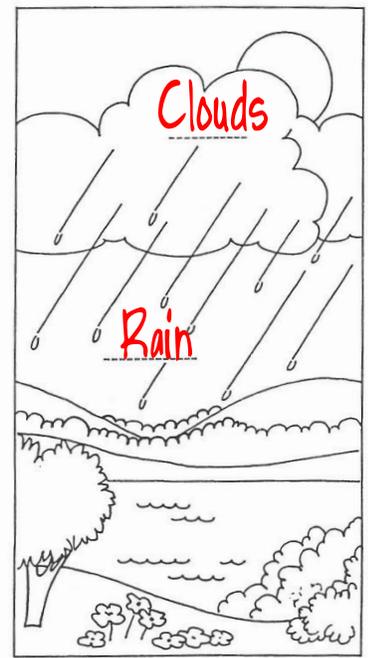

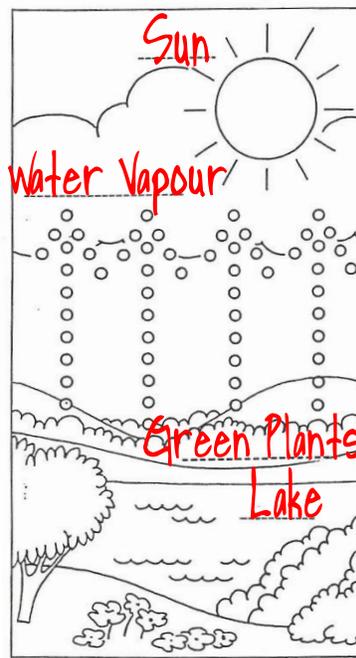

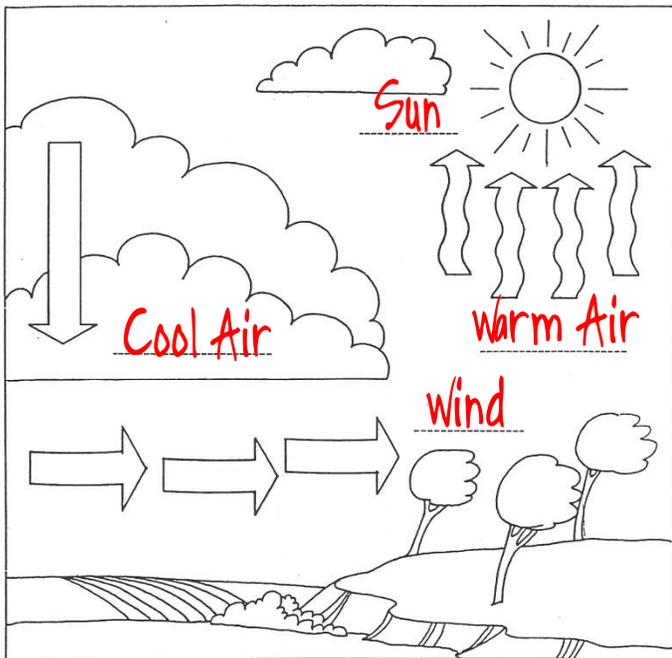

fossil fuels  
(gasoline)

wood

4. Label the pictures of the wind cycle and the water cycle.

Rain	Green Plants	Sun	Lake	Water Vapour	Clouds
Sun	Warm Air	Cool Air	Wind		

5. How does a tree rely on both the water cycle and the wind cycle?

The wind helps because it carries seeds so they can be planted.

The water is needed for growth of the tree.
