

In approximately one week you will have a science quiz. The quiz will be paper and pencil, however the questions will be read orally and support will be provided as required. Below you will find a copy of the quiz. Please use your science webpage to study for your quiz. If you are having any trouble, please e-mail me so that I can help.

1. What is movement? {Lesson 1}
2. What are some things you can do to make something move? {Lesson 8}
3. What are some types of movement? {Lesson 4}
4. Explain the different types of movement that a roller coaster goes through. {Use info from all lessons to describe}
5. Write 5 sentences, using different position words, about the picture below. On the quiz there will be a picture of a group of animals. {Lesson 2}
6. If you had 3 balls, how would you find out which ball bounces the highest? Explain everything we did in class. {Lesson 4}
