# SOLIDS

Fill in the blanks with words about solids from the word box below.

Some matter has a shape that you can \_\_\_\_\_ and

feel. A solid is a form of matter that keeps its

\_\_\_\_\_. It will not \_\_\_\_\_ shape by

itself.

---

## TEST YOUR SOLIDS.

1. Choose two solid objects.
2. Look at your solids. Use a magnifying glass to look closer.  
Explain and draw what you see.
3. Feel your solids. Weigh them and record what you measure,  
then describe what they feel like.

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Solid A		Drawing
Weight (g)		
What did it look like?		
What did it feel like?		

Solid B		Drawing
Weight (g)		
What did it look like?		
What did it feel like?
