# States of Matter

There are three states of matter: \_\_\_\_\_,  
\_\_\_\_\_, and \_\_\_\_\_.

All matter is made of \_\_\_\_\_.

In a solid the particles are very \_\_\_\_\_ together,  
and move very \_\_\_\_\_.

In a liquid the particles are far \_\_\_\_\_, and move  
\_\_\_\_\_.

In a gas the particles are very \_\_\_\_\_ apart, and  
move \_\_\_\_\_ quickly.

liquid	particles
far	very
close	solid
slowly	gas
fast	apart
