# Forces

Examine the pictures of the four seasons, and look at all of the movement that is happening. After looking at the pictures, try to answer the questions, "What is a force?"

After you have thought about what a force might be, think of questions you would like answered about forces. Write your questions on this paper. As you learn about forces this year, you can write the answers to your questions.

My first question about forces is:

---

---

---

The answer to this question is:

---

---

---

My second question about forces is:

---

---

---

The answer to this question is:

---

---

---

My third question about forces is:

---

---

---

The answer to this question is:

---

---

---

My fourth question about forces is:

---

---

---

The answer to this question is:

---

---

---

My fifth question about forces is:

---

---

---

The answer to this question is:

---

---

---
