

Grade 4 Science

Lesson: 2-21

Unit: Rocks and Minerals

Topic: Review

Lesson

- Hand out review sheet, test next class
- Inform students that they are to use the period to complete the sheet → may work with others HOWEVER test will be done individually, so it may be good to work alone to see what you know
- Students work for period
- Take up answers at end of period.
- Students take work home with them today
