

# Grade 8 Science

## Unit 1: Introduction and Safety

### The Scientific Method

You have today's period to work on your experiment. Please use your time efficiently.

- Get in a group of 3 students (make good choices) ✓
- Choose an experiment (real or fictional) ✓
- **Complete the "Components of our Experiment" planning sheet**
- **Develop a digital worksheet for your experiment (drive)**
- Print a copy of your completed worksheet
- Complete the worksheet with mock information (i.e., fill it in as if you were a student doing the experiment)
- Share your digital worksheet with me
- Submit your completed worksheet and planning sheet

## The Scientific Method

Next class is your last opportunity to work on this. By now you should be done your planning sheet and working on your digital worksheet. If not, you are behind, and you should be working on this as homework.
