

# Grade 8 Science

## Unit 1: Introduction and Safety

### The Scientific Method

You have today's period to work on your experiment. This is your last period. Please use your time efficiently.

- Get in a group of 3 students (make good choices) ✓
- Choose an experiment (real or fictional) ✓
- Complete the "Components of our Experiment" planning sheet ✓
- **Develop a digital worksheet for your experiment (drive)  $\frac{1}{2}$**
- **Print a copy of your completed worksheet**
- **Complete the worksheet with mock information (i.e., fill it in as if you were a student doing the experiment)**
- Share your digital worksheet with me
- Submit your completed worksheet and planning sheet

## The Scientific Method

By now you should be done your assignment. If not, you are to submit your work at the start of next class.

Next period we will look at safety in the science classroom. Do you remember these?
